

Defending the Offshore Power Boat World Championship

J&S Motorsports/Watt-Ahh® Racing Team competed in a higher Class and beat T.V. *Deadliest Catch's* Time Bandit in Key West, Florida last November. The Watt-Ahh® Team will be back in Key West, November 6 through 13, 2011, to defend its World Championship Title.

Watt-Ahh® and Time Bandit Powerboats

Sarasota, FL, October 22, 2011

Last year, there was a bi-coastal rivalry for the World Championship between Florida and Alaska. A team of Florida gear heads of the Watt-Ahh® Team snatched the World Championship from Time Bandit that is sponsored by the legendary Alaskan crab boat on TV's *Deadliest Catch*.

Travis Lofland who is a deckhand aboard the Wizard and he was throttleman for Time Bandit said, "It's the speed, the adrenaline. It's pucker factor high." The race teams competed in unsettled seas which capsized two racing boats last year.

The winning Watt-Ahh® boat was driven by Scott Brown and Throttleman Eddie Tamberino, their first World Championship after 8 years of racing. "Rough seas are the norm in the 'Ocean Stretch' of the Key West races" says Driver Brown. When the boat laid over on the third and final race last year, Brown recalls, "...I

took one hand off the wheel to grab the emergency air regulator thinking we were going for a swim. But my Throttleman, Eddie, stayed on it and the boat recovered to keep racing”.

“We will be ready for the wild and competitive times for Key West this year,” says Rob Gourley, one of the Watt-Ahh® boat’s mechanics. Gourley is also a tough guy even the Time Bandit crew might appreciate. He spent over two decades keeping heavy machinery going on the Alaskan pipeline project in Prudhoe Bay. “Thanks to the awesome abilities of Scott and Eddie, they kept the boat headed towards ultimate victory last year and we look forward to defending the World Championship Title”, adds Gourley.

About Watt-Ahh®: Game Changing Water™ that provides superior hydration and faster recovery for all athletes. Watt-Ahh® is the Best Sports Performance Water with a Twist and is anticipated to be in national retail distribution by the end of this year. Check it out at www.AquaNew.com and our new QR Code mobile landing page.
